Dear Sirs:

It has come to my attention that you are considering changing regulations, which will limit or restrict me from having natural replacement hormones compounded at my pharmacy?

I personally think this is an unnecessary action. I have chosen to have natural hormone replacement under a doctor's supervision and to have them compounded by a pharmacy. This *memorandum of understanding* I am reading about, I fear, will deprive me of a natural option in treating my menopausal symptoms.

I do not approve of the restrictions you are considering by revising the current practice.

Sincerely,

*Ramona A Bounds*
